tel : 0151 348 0020

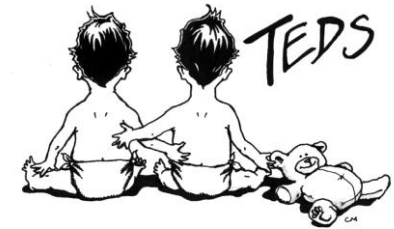

**MBF - Multiple Births Foundation.**

For professional support of families with twins and higher multiple births.

Queen Charlotte's and Chelsea Hospital,  
Goldhawk Road, London W6 0XG.  
tel : 0171 740 3519/3520

TWINS' EARLY DEVELOPMENT STUDY

TWINS' EARLY DEVELOPMENT STUDY

**Thank you  
for showing interest in  
the largest study of  
twins ever conducted  
in England and Wales!**

**The parents of all twins  
born in 1994, 1995 and  
1996 will be asked if they  
would like to join the study.**

**This could be up to  
21,000 pairs of twins!  
The Twins' Early Development  
Study will help**

us learn more about the development of all children.

We are particularly interested in how children learn to talk, co-ordinate movement, and discover other new skills.

With this leaflet, we have sent you a booklet, asking you about you and your family.

We would like you to fill this in and send it back to us, using the **freepost** (no stamp needed) envelope.

Around the twins' second birthdays, we will send some games for you to play with your twins. They include matching shapes and colours and building with bricks, which we hope you and your twins will enjoy.

You will be kept up-to-date on the study by a TEDS newsletter. As a thank you for taking part, your twins will be given a small gift.

For now all we ask is that you fill in the enclosed booklet and send it back to us.

**We will pay for all the postage.**
